

# Understanding Commission Value Indicators

ALG Vacations® provides communication of hotel commission status via Commission Value Indicators. These indicators help you determine if full commission is earned on the selected hotel or if there is a limitation in the hotel commission due to a commission cap in place. Commission indicators are gold or yellow and are found in the Hotel Availability pages during your itinerary build actions at [ALGVacations.com](http://ALGVacations.com).

## Commission Considerations

The destination you are booking will help determine your commission limitations.

- ALL hotels in **Mex/Carib/Hawaii/Europe/Asia** will not display a FULL COMMISSION value indicator because ALL properties qualify for FULL COMMISSION with ALG Vacations® brands.
- When shopping properties in all other destinations including the domestic U.S., full commission on the hotel is dependent on the Value Indicator stating FULL COMMISSION. Hotels without this Commission Value ID will have commission limit of 5% due to hotel sourcing.
- When booking a hotel with reduced commission, consider using the [Set Your Own Commission](#) tool to make up the hotel sourcing difference.
